GOODWE

SDT G2 Series

17-25kW I 2 MPPTs I Three Phase

The GoodWe 17-25kW SDT Series inverter is especially designed for three-phase residential and small commercial projects. With its compact design, the SDT inverter is 45% smaller than the first generation. The inverter is also light and easy to install. The maximum efficiency of this inverter is as high as 98.4%. With an advanced ventilation system, the inverter is able to dissipate heat efficiently. In addition, it can be customised with an integrated LCD scree.

Compatible with bifacial modules

150% DC input oversizing

110% AC output overloading

Max. Efficiency 98.4%

Compact and light weight
